Project: Client experiences of intrauterine device (IUD) insertion at a sexual and reproductive health training clinic.

Investigators: Dr Alison Barr, Dr Sara Whitburn, Dr Cat Kirby, Ms Bonnie Kikkert, Ms Seni Sina

Project description

You are invited to take part in a study that will investigate client experiences of the insertion of an intrauterine device (IUD) at a Sexual Health Victoria clinic. You are under no obligation to participate in this study.

You can participate if...

You have an appointment for the insertion of an IUD at a Sexual Health Victoria clinic, and you receive said device.

What will I be asked to do?

You will be asked by the front desk when you arrive for your IUD insertion if you would like to participate in our study. Should you agree to participate, you will be asked to read a Plain Language Statement and provided with a link to complete a short 10-minute survey in a private space or at home after your IUD insertion. The survey will ask you questions about your experience with the IUD insertion procedure, and your pain and comfort levels.

The total time commitment is about **15-20 minutes**.

If you wish to participate, you will need to opt-in by letting front desk staff know and by clicking on the link and completing the survey

Contact

For any further information or to volunteer to take part in the study, please contact:

Dr Sara Whitburn (Medical Director, Sexual Health Victoria)

Tel: (03) 9257 0100; email: swhitburn@shvic.org.au

Dr Cat Kirby (Research, Evaluation and Policy Manager, Sexual Health Victoria)

Tel: (03) 9257 0100; email: ckirby@shvic.org.au
